

BRADFORD COUNTY CONSERVATION DISTRICT

Stoll Natural Resource Center
200 Lake Road, Suite E, Towanda, PA 18848
Telephone (570)485-3144

January 2026 Meeting

The January 2026 meeting of the Bradford County Conservation District was called to order by Keith Heimbach, Chairperson of the BCCD, on January 5, 2026, at 12:30 PM, at the Stoll Natural Resource Center, Wysox, PA.

District Directors attending the meeting were: Keith Heimbach, Tony Ventello, Brian Zeidner, Daryl Miller, and Robert Miller

Others attending the meeting were: Leslie Bresee – Guest, Rich Gulyas – Guest, Rachael Fish – DEP Conservation Field Rep, Joe Quatrini – District Manager, Jonathan VanNoy – Natural Resource Specialist, Tim Robson – Dirt & Gravel Roads Specialist, Glenn Bell – Ag. Resource Specialist, Melissa Faughnan – Dirt & Gravel Roads Specialist, Patrick Cullen – District Engineer, Jenny McNeal – Account Supervisor, Jennifer Johns – Natural Resource Specialist, Adam Chorba – Forest Specialist, Dan Rhodes – Education Coordinator, Lacy Powers – Watershed Specialist, Brad Cummings – Conservation Technician, Miranda Neville – Ag. Resource Specialist, Kevin Brown – Ag. Team Leader, and Breanna Ameigh – Administrative Assistant.

Daryl Miller made a motion to accept the December 2025 minutes as written. Brian Zeidner seconded the motion, and it was unanimously passed.

REPORTS FROM COOPERATING AGENCIES AND GUESTS:

Commissioners' Office – Daryl Miller reported that there are no changes since the December meeting.

Commission Report – Field Representative - a handout of the January 2026 DEP Conservation District Field Rep Talking Points was handed out and discussed.

Claverack – Brian Zeidner reported that budgets are done and approved. He has been working on articles regarding the Pollinator Garden. Over 4,000 customers have signed up for fiber.

Director Nominations – Rachael Fish administered the oaths for Daryl Miller, Keith Heimbach, and Brian Zeidner.

Daryl Miller nominated Keith Heimbach for the position of Chair. Tony Ventello seconded the motion; it was passed unanimously.

Keith Heimbach nominated Daryl Miller for the position of Vice Chair. Brian Zeidner seconded the motion; it passed unanimously.

Brian Zeidner nominated Al Herman for the position of Treasurer Secretary. Daryl Miller seconded the motion; it passed unanimously.

OLD BUSINESS:

Manchester Scholarship – Camille McRoberts and Masie Neuber received \$2,000 each. These were awarded on December 29 at 10:00 at the Stoll Natural Resource Center. Dan, Al, Joe, and Breanna attended as well as members of the Manchester Family.

Building and Grounds Feasibility Study – Andy Harding visited and will have a preliminary report at the end of the month.

COMMITTEE REPORTS:

NEW BUSINESS:

Chapter 102 Fees – This will be tabled until the February meeting. The fees were last updated in 2022.

Committee Changes – See attached committee lists. Brian Zeidner made a motion to approve the changes to the committees. Daryl Miller seconded the motion; it passed unanimously.

Above and Beyond Award – The Above and Beyond Award was presented to Glenn Bell for his willingness to volunteer to help with various project including the Halloween parade.

Employee of the Year 2025 – The Employee of the Year Award was presented to Jonathan VanNoy for his design work, construction, and IT assistance.

PROGRAM UPDATES:

Nutrient Management Plan – Towner Hill Hog Farm. See attached.

ACAP Presentation – Patrick Cullen presented the ACAP recap.

Treasurer's Report – Brian Zeidner made a motion to accept the treasurer's report and pay the bills. Daryl Miller seconded the motion, and it was unanimously passed.

OTHER:

Correspondence – A summary of correspondence received was provided at the meeting.

The meeting was adjourned at 1:19 PM by Keith Heimbach.

The next meeting of the Bradford County Conservation District will be held on February 2, 2026, at 12:30 PM at the Stoll Natural Resource Center and via Zoom.

Respectfully submitted,
Breanna Ameigh
Administrative Assistant

BCCD Committees

Ag. – Keith Heimbach (Ch), Daryl Miller, Josh Ford, Rob Miller, Chad Spencer, Mark Madden, Al Herman, Staff Advisors Kevin Brown, Miranda Neville, Patrick Cullen, Glenn Bell, Jen Johns, Joe Quatrini

Building & Grounds – Brian Zeidner (Ch), Bruce Chase, Daryl Miller, Anthony Ventello, Chad Spencer, Joe Quatrini, Kevin Brown, Jonathan VanNoy, Glenn Bell, Patrick Cullen, Breanna Ameigh

Dirt, Gravel, & Low Volume Roads Program – Daryl Miller (Ch), Chad Spencer, Jeremy Yohe, Matt Williams, Rob Miller, Les Bresee Staff Advisors: Joe Quatrini, Tim Robson, Melissa Faughnan, Jonathan VanNoy

District Operations/Employees – Keith Heimbach (Ch), Al Herman, Bruce Chase, Staff Advisor: Joe Quatrini

Education & Youth – Nicole Harris (Ch), Bruce Chase, Dan Rhodes, Joe Quatrini, Lacy Powers, Breanna Ameigh, Jolie Coates

Erosion & Sedimentation Pollution Control – Tony Ventello (Ch), Bruce Chase, Chad Spencer, Staff Advisors: Joe Quatrini, Brad Cummings, Lacy Powers, Melissa Faughnan

Forestry Committee – Nicole Harris, Al Herman, Bruce Chase, Staff Advisors: Adam Chorba, Joe Quatrini, Dan Rhodes, Jen Johns

PACD Executive Council – Daryl Miller (Delegate), Joe Quatrini (Alternate), Al Herman (2nd Alternate)

Public Relations and Outreach – Al Herman (Ch), Brian Zeidner, Les Bresee, Joe Quatrini, Dan Rhodes, Miranda Neville, Kevin Brown, Lacy Powers, Jenny McNeal, Breanna Ameigh

Salary Committee – Al Herman (Ch), Brian Zeidner, Joe Quatrini, Kevin Brown, Jenny McNeal

Strategic Planning – Joe Quatrini (Ch), Rob Miller, Daryl Miller, Tony Ventello, Kevin Brown, Dan Rhodes

Watersheds, Waterways & Wetlands – Al Herman (Ch), Rob Miller, Tony Ventello, Chad Spencer, Staff Advisors: Joe Quatrini, Brad Cummings, Adam Chorba, Lacy Powers, Jonathan VanNoy, Jen Johns, Melissa Faughnan

January 2026 Conservation District Field Rep Talking Points

2026 Conservation District Director Nominations

Information packets for 2026 Conservation District Director nominations and appointments were sent out to county chief clerks and copies went to district managers in August. District managers are encouraged to contact chief clerks to discuss the 2026 nomination process and to answer questions regarding vacancies on their board. Appointments were due to the State Conservation Commission by December 15. Director's whose terms expire December 31, 2025 may continue to serve until reappointed, they are replaced with a new appointment or for 6 months, whichever comes first. Conservation District Field Representatives and the State Conservation Commission are available to answer questions concerning the director nomination process. **Completed Director Appointment Submission Forms should be emailed to the SCC ra-agccmain@pa.gov .**

2026 Virtual Annual Watershed Specialist Meeting

The Watershed Specialist Annual Meeting will be held virtually on February 3rd-4th, 2026 for two half-day sessions. This meeting has been arranged in place of the mandatory in-person October 2025 meeting. On the first half-day we will be discussing process and procedures related to reimbursement requests and associated paperwork for the Growing Greener and Watershed Specialists grants.

We are requiring that anyone involved in the administration of these programs and the associated paperwork attend the meeting on the first-half-day.

Please find the registration link here → **Virtual Registration Form Link:**
<https://forms.gle/3cqcHw8fb9bByQbB8>

If you have any questions or comments, please feel free to contact Shane Kleiner at shkleiner@pa.gov or by phone at 570-826-2509.

Leadership Development

Director “Back to Basics” Orientation Workshop - The Leadership Development program's 2026 Board Development Initiative will include a regional “Back to Basics” Orientation Workshop designed for newly-appointed Director and Associate Directors. The program will include a condensed overview highlighting crucial information on district form and function, Director roles and responsibilities, legal requirements, partner relationships, and board development. Regional Orientation Training Sessions are scheduled for March 11 at Clinton CCD, March 12 at Cumberland CCD, March 18 at Westmoreland CD, March 24 at Monroe CCD, April 1 at the Lawrence County DPS, and April 23 at Berks CCD. Networking starts at 9am, the training will run 10am – 1pm and includes lunch. All Directors and Associate Directors, as well as district and partner staff, are welcome to attend. Visit PALeadership.org for more information and to register.

Update Needed: PAOneStop website links

We need your assistance in updating the PAOneStop Farm Planning System link and the related flyers on your websites. The correct link for PAOneStop is PAOneStop.psu.edu. Please note that all other links are not administered by Penn State and will not take users to the PAOneStop Farm Planning System. Ready-to-print PDF flyers for the PAOneStop modules are available for web posting. For more information, please contact Jennifer Weld: jlw23@psu.edu or 814-863-3500.

College Internship Opportunity with DEP Bureau of Watershed Restoration and Nonpoint Source Management

DEP is looking for two great college interns to work with DEP's Bureau of Watershed Restoration and Nonpoint Source Management (BWRNSM) this summer. Both internships qualify for part-time telework and two days a week in DEP's Harrisburg Central Office., compensated at \$17.38/hour.

One position will be working mostly with the Chesapeake Bay Partnership Section using GIS for communications and outreach tools and requires current full-time enrollment in a bachelor's degree, or advanced degree program in one of the following majors:

- Computer Science
- Geographic Information System (GIS)
- Environmental Science

DEP BWRNSM Chesapeake Bay Division Internship: [Commonwealth of PA Internships & Apprenticeships | Find Your Passion for Public Service!](#)

The second position will be working with the Nonpoint Source (NPS) Division on issues related to Agriculture Compliance, Conservation District Support, and Watershed Restoration. It requires enrollment in good academic standing as a FULL-TIME student in a bachelor's, or advanced degree program in:

- Agricultural Sciences
- Environmental Resource Management
- Environmental Studies

DEP BWRNSM NPS Internship: [Commonwealth of PA Internships & Apprenticeships | Find Your Passion for Public Service!](#)

Chapter 105 Program

PA Centric Webinar on New NRCS Manual – On Tuesday, December 16, 2025, 124 representatives of state federal and local governments involved in wetland identification and hydric soil identification participated in a webinar on the USDA NRCS' new compendium of **Hydric Soils of Problematic Conditions and Altered Materials**. This manual, released earlier in 2025, references our current understanding of problem conditions and altered soil scenarios which can cause difficulty in hydric soil identification and it also provides solutions to address these circumstances. Aaron Miller, an NRCS soil scientist, member of the National Technical Committee for Hydric Soils, and author of this publication, presented on this manual and explain its purpose and use, and discuss specific components of this manual most applicable to Pennsylvania. Please share this with other government organizations who may benefit. This webinar was recorded and will be added to the Clean Water Academy by the end of year.

Webinar on Guidance for completing Wetland Determination Forms with review considerations – On December 16, 2025, 119 representatives of state, federal, or local government organizations performing wetland identification and regulation work in Pennsylvania participated in this webinar focusing on completing the Wetland Determination Form, as well as key review considerations. This webinar was presented by Frank Plewa, a leading wetland expert Wetland Specialist from the U.S. Army Corps of Engineers – Baltimore District's Regulatory Program. Mr. Plewa brought an unparalleled wealth of knowledge to this session, having performed thousands of delineations and jurisdictional determinations and conducted hundreds of wetland identification trainings and seminars throughout his career. This webinar was recorded and will be added to the Clean Water Academy by the end of year.

Wetland Determination Walkthrough with The Army Corps of Engineers Interactive Training on Clean Water Academy - This training program is a collaborative effort between The Bureau of Waterways Engineering and Wetlands, Division of Wetlands Encroachment and Training, and the Army Corp of Engineers. This comprehensive course provides an in-depth exploration of wetland determination, guiding learners through both growing and non-growing season scenarios. Participants will learn about essential field resources and on-site considerations, with a focus on hydrology, soil, and vegetation indicators. Designed as a comprehensive experience, this training serves as an invaluable resource for professionals seeking expertise in wetland assessment.

- [Wetland Determination: Wetland Determination Walkthrough with The Army Corps of Engineers \(2.5 Hours\)](#)

Permitting Efficiency: Chapter 105 GP SOP Updated – On December 4, the Bureau of Waterways Engineering and Wetlands’ (BWEW) Division of Wetlands Encroachment and Training (Division) finalized and issued the revised Standard Operating Procedure (SOP) for Chapter 105 General Permits (GP). The effort to revise Chapter 105 SOPs was started in 2024 and the release of the GP SOP this week is the final permit processing SOP in the revision effort. The [SOP](#) and the [GP Review Checklist](#) (found in the SOP Appendices) are available in the [Chapter 105 Resource Center](#) on the Clean Water Academy. The SOP includes multiple process efficiencies such as more direct resolution of remaining deficiencies, and clear guidelines on when review staff can issue letters and general permit registrations independently. The SOP also incorporates procedures for electronic permitting systems into the SOP. The Division plans to hold a webinar in January for Chapter 105 staff to discuss this SOP.

- [Course: Chap. 105 - Resource Center, Topic: Standard Operating Procedures](#)

Cocalico Creek Watershed Restoration Watershed Permit Issuance - The Division of Wetlands, Encroachments, and Training issued the second watershed restoration permit on December 4, 2025. The permit gives consent to the Cocalico Creek Watershed Association to construct and maintain Phase 1 of the Cocalico Creek Watershed Restoration Project located in Lancaster County in the Conestoga River watershed (State Water Plan Subbasin 07). The permit term is for seven (7) years and can be extended. Phase 1 involves restoration of 1,417 feet of watercourse and 3 acres of associated floodplains. This phase will result in restoration of a total of 2.0 acres of wetlands. Future final construction plan sets for additional project phases (9 in total) will undergo separate expedited restoration plan review and approval. The project includes restoration, rehabilitation, and enhancement activities of aquatic resources across approximately 125.9 acres of the Cocalico Creek watershed. All or a portion of 34,745 linear feet of watercourse, adjoining floodplains, and associated 31.4 acres of wetlands may be affected by the overall project.

In total, the project identifies and proposes nine project areas or phases of the overall project to lessen or reverse the degradation or discontinuity through implementation of restoration, rehabilitation, and enhancement construction techniques to address the predominant causes of degradation. The watershed permit will allow the watershed organization to adapt to potential project funding sources and provide an expedited restoration approval process well into the future.

The watershed restoration permit concept was developed specifically for comprehensive large-scale restoration projects. While it addresses permitting efficiencies, it is worth noting that funding constraints may require comprehensive funding strategies as well. This permitting option provides permitting efficiencies but also requires significant planning and commitment by project sponsors.

Chapter 102 Program

Chapter 102 Quarterly Newsletter – The newsletter was emailed out the first week of January. It is also always available in the 102 Resource Center of Clean Water Academy, under [DEP Guidance, Policies, and FAQs](#). CCDs are encouraged to review the newsletter each quarter for reminders, updates, and tips. CCD staff are also welcome to make their own contributions to the newsletter; if interested, contact Luke Graver at lugraver@pa.gov.

District Fee Schedules – CCDs are reminded to review their fee schedules and revise any verbiage that indicates “permit review” or “plan review” fees to “service fees”. This terminology switch is more indicative of the processes and services that CCDs provide over the life of a permit, from application submission to permit termination. It also clarifies why applicants are still required to pay district fees even when they use SPEED for permit review. Adding an explanation statement or disclaimer to the fee schedule is not adequate unless you’ve also changed the terminology used.

Upcoming Events

- 102 Engineers Workgroup Meeting – January 12
 - Contact Lee Engel (lengel@pa.gov) if you are a District Engineer but have not received an invitation
- Enforcement Training: Tools in Our Toolbox webinar – January 30 (Level III Districts)
- CCD Listening Session on Permit Efficiency (SPEED) – March 3
- Regional In-Person E&S Training – DEP’s Bureau of Clean Water will be hosting one-day small group E&S training events at each region again in 2026. Be on the lookout for registration announcements!

Clean Water Academy

Course: 2026 Aquatic Resource Restoration Conference

The purpose of the conference is to facilitate knowledge transfer among scientists, regulators, and practitioners involved in aquatic resource restoration work in a scientifically sound manner using an evidence-based approach in recognition of modern constraints that results in the restoration of resilient aquatic resources.

Course: Encountering Acid-Producing Rock/Coal During Construction Activities

Sharon Hill from the Bureau of Mining Programs explains how to manage acid producing rock and coal during construction. She discusses identifying these materials, their impact on land development, and the planning needed to prevent pollution. Key topics include site characterization, testing for sulfur content, and the importance of licensed professionals in managing these materials. The presentation also addresses common questions about coal removal and APR handling.

Course: BLM Lookup Table for Copper Instructional Video

This video explains how to determine BLM (Biotic Ligand Model)–based copper water quality criteria using DEP’s lookup tables, including how to find Strahler stream order in eMapPA and how to use pH and DOC (dissolved organic carbon) data to select and read the correct table.

Course: MRC (Managed Release Concept)

In this course, the Pennsylvania Department of Environmental Protection (DEP) will introduce the foundational principles of MRC Stormwater Control Measures (SCMs) and their design standards. Through this course, participants will gain the knowledge and skills needed to effectively implement MRC SCMs. This course is designed for professionals involved in stormwater management, planning, and design, providing practical guidance to support sustainable and compliant stormwater practices. Additional lessons are under development.

Course: Streamlining the Budget Submission Process

Learn about the new budget data submission process, which simplifies data entry and eliminates redundant steps. The session details how to access the new system and use the updated budget spreadsheet, highlighting benefits like enhanced data analysis and reporting. It also covers the use of Excel for reporting on positions and funding, emphasizing collaboration and support for users while addressing questions about data accuracy and deadlines.

Chesapeake Bay

2025/2026 CAP Grant Awards Announced - On December 12, the 2025/2026 CAP Grant Awards were [announced](#). Since that time, emails have been sent by the Grants Center to all counties receiving CAP awards. The emails contain the county's award letter as well as a request for counties' signatory information for the new grant agreements.

Counties will need to reply by email with the Name, Title, and Email Address of the individual who is authorized to sign the agreement. Once all documents and grant signature information have been received, these will be reviewed by the Department's Grants Center and Program Staff. When the review has been completed, the grant agreement documents will be sent through the eSignature system for review and signature. The sooner counties provide this information, the quicker the Grants Center can begin to start the new agreement process.

In addition to providing signatory information, counties must also provide a Federal Funding Accountability and Transparency Act Subrecipient Data Sheet (regardless of whether they are receiving federal funds or not) and an implementation budget sheet. Those documents were provided in the award email sent by the Grants Center. Note: during the grant application, counties filled out an implementation budget sheet, but a new one must be submitted that reflects the amount of implementation funds that were actually awarded to the county via the CAP Grant (do not include funds awarded for CAP Coordinators, these were addressed in separate budget sheets).

Dates to Remember

2026 State Conservation Commission Meeting and Conference Call Dates

<u>Meetings</u>	<u>Conference Calls</u>
January 20, 2026 *	February 17, 2026**
March 17, 2026 *	April 23, 2026 (Thursday)**
