

BRADFORD COUNTY CONSERVATION DISTRICT

Stoll Natural Resource Center
200 Lake Road, Suite E, Towanda, PA 18848
Telephone (570)265-5539 Ext.

March 4, 2024, MEETING

The March 2024, meeting of the Bradford County Conservation District was called to order by Keith Heimbach on March 4, 2024, at 12:30 PM, at the Stoll Natural Resource Center.

District Directors Attending the Meeting were: Keith Heimbach, Alvin Herman, Robert Miller, and Anthony Ventello

District Directors via Zoom: Nicole Harris

Others attending the meeting were: Cathy Yeakel – District Manager, Rachael Fish – DEP Conservation District Field Rep, Joe Quatrini – Tech Team Leader, Brad Cummings – Chapter 102/105 Program Manager, Chad Spencer – NRCS, Tim Robson – D&G Roads Specialist, Matthew Schoen – D&G Roads Specialist, Jonathan VanNoy – Natural Resource Specialist, Miranda Neville – Ag. Resource Specialist, Lacy Powers - Natural Resource Specialist, Patrick Cullen – District Engineer, Daniel Rhodes – Education Coordinator, Jen Johns – Buffer Specialist, Adam Chorba – Forest Specialist, Breanna Ameigh – WNV Coordinator, Jenny Marino – Accounts Supervisor, and Cheri Holecek – Administrative Assistant.

Robert Miller made a motion to accept the February 5, 2024, minutes as written. Anthony Ventello seconded the motion; motion was unanimously passed.

REPORTS FROM COOPERATING AGENCIES AND GUESTS:

NRCS –

- EQIP working with BCCD to obligate first round of FY24 EQIP funds.
- Obligated @ \$840,000 on @ 2,200 acres in 9 contracts for Act Now cover crop contracts
- Working on CSP assessments and rankings for first round
- Setup Local Work Group mtg. with Bradford and Sullivan county conservation districts, partners, and public on March 18 10AM at Stoll conference room.

Commission Report – Field Representative - a handout of the March 2024 DEP Conservation District Field Rep Talking Points was handed out and discussed.

OLD BUSINESS

Protection options on FCCB Bank Accounts – Anthony Ventello made a motion to proceed with contracting Fraud protection for \$40/month on the FCCB Bank Accounts. Alvin Herman seconded the motion, the motion was unanimously passed.

COMMITTEES

Buildings and Grounds – Andy Harding provided a quote on doing the feasibility study, it has not yet been reviewed by the committee. Staff has reached out to landowners that back up to BCCD land and have inquired about purchasing. The Grant application has been started.

NEW BUSINESS

Stream Crossing Contracts - There are two contracts for \$5,000 each, for Rome and Pike Townships, for design, permitting and construction oversight. Al Herman made a motion to proceed with the contracts as stated. Robert Miller seconded the motion, the motion was unanimously passed.

Hire new employee for Farmland Preservation/Nutrient Management – Glenn Bell has been approved by the commissions as the new hire. Robert Miller made a motion to approve Glenn Bell for the position. Anthony Ventello seconded the motion, the motion was unanimously passed.

Mileage rate increase – Anthony Ventello made a motion to raise the mileage rate from \$0.655 to \$0.67 per mile. Alvin Herman seconded the motion, the motion was unanimously passed.

Earth Day is April 20, 2024, this event is open to the public.

Women in Ag event will be April 4, 2024, reservations are required to attend.

Barclay Mountain Co, is holding a Scavenger Hunt. It was agreed upon that we would join for \$350, which includes advertising and participation.

PROGRAM UPDATES

ACAP Update – None

Nutrient Management Plan Approvals – None

D&G Contracts – None

Treasure's Report & Payment of Bills – The Treasurer's Report was presented to the Board. Robert Miller made a motion to accept the Report and Payment of Bills. Alvin Herman seconded the motion, the motion was unanimously passed.

Correspondence – A summary of correspondence received was provided at the meeting.

The meeting was adjourned at 1pm by Keith Heimbach.

The next meeting of the Bradford County Conservation District will be held on Monday, April 8, 2024, 12:30 PM, at the Stoll Natural Resource Center and via Zoom.

Respectfully submitted,

Cheri Holecek

Administrative Assistant

March 2024 DEP Conservation District Field Rep Talking Points

Trenchless Technology Guidance - The Bureau of Waterways Engineering and Wetlands (BWEW) and the Regional Permit Coordination Office (RPCO) published the final technical guidance: *Trenchless Technology Guidance* in the *Pennsylvania Bulletin* on February 24, 2024. This document is available in DEP's eLibrary at: <https://greenport.pa.gov/elibrary/GetFolder.aspx?FolderID=1039254>. **Please note that the effective date is February 24, 2024.**

This has been a collaborative effort with many stakeholders, internal and external, providing valuable feedback over several years. The Program wants to thank everyone who was involved at some level in the development of this guidance. The following individuals contributed significantly to the completion of this project and would like to be recognized by the Program: **Domenic Rocco, Cristine Vinciguerra and Drew Foley** with RPCO, **Andy McDonald** with BWEW's Division of Wetlands Encroachment & Training, and **High Garst** with the DEP Policy Office.

We ask that you please take some time to review the document. If you have any questions or comments begin compiling them to share at a later date through a single point of contact from each office/district. We plan to schedule a training related to this guidance in the near future.

Lastly, please remember that this technical guidance is what DEP is **recommending** to operators who use or intend to use a trenchless technology construction method. Requirements in technical guidance are only communicated in those instances where the guidance references statutes or regulations. Your technical deficiency letters and correction notices should only cite statutes and regulations, not technical guidance. You can **recommend** that operators consider points of interest from this guidance in the development of their permits and authorizations materials, including their PPC plans during preapplication meetings.

High Tunnel Technical Guidance Document Withdrawal

DEP's recent withdrawal of the technical guidance document (TGD), *Water Management for Agricultural High Tunnels* (383-4200-001) did not alter in any way the provisions of the Commonwealth's Storm Water Management Act (Act 167 of 1978) as amended by Act 15 of 2018. As indicated in the Pennsylvania Bulletin notice about the TGD withdrawal (see [54 Pa.B. 473](#)), DEP withdrew the guidance because it largely mirrored language in Act 15 of 2018 without providing much guidance beyond the statutory language.

Part of DEP's reason for publishing that guidance in the first place was to make clear that, although Act 15 of 2018 exempted certain high tunnels from the provisions of the Storm Water Management Act, that DEP regulations under other statutes (like the Clean Streams Law, the Dam Safety and Encroachments Act, the regulations at 25 Pa. Code Chapter 102 and 25 Pa. Code Chapter 105, for example) can still apply to high tunnels in certain situations. However, nothing in Act 15 of 2018 exempted high tunnels from the provisions of those other statutes and their implementing regulations, so a DEP guidance document saying as much was not really necessary.

To that point, DEP would point out that the statement from the *Lancaster Farming* article that "... *high tunnels are exempt from stormwater regulation in Pennsylvania.*" is an oversimplification. To reiterate, Act 15 of 2018 did exempt certain high tunnels from provisions of the Storm Water Management Act, but not from other statutes and regulations governing stormwater in Pennsylvania (like Chapter 102 regulations for erosion and sediment control (E&S), post-construction stormwater management (PCSM), and Chapter 105 regulations for water obstructions or encroachments). When the amount of earth disturbance associated with construction of a high tunnel triggers the need for Chapter 102 permit coverage (that is, when the total amount of earth disturbance is one acre or more, as required by 25 Pa. Code § 102.5(a)), E&S and PCSM requirements will apply. Similarly, when a structure is being built along or across a waterway, Chapter 105 permitting requirements may also apply.

PAG-02 Authorization Letter Updated - The Bureau of Clean Water has updated the PAG-02 Authorization Letter template to prepare new permittees this year of the upcoming need to submit renewal Notice of Intent (NOIs) by December 7, 2024. All permittees with PAG-02 coverage prior to December 7, 2024, will need to submit the renewal NOI, even if they've only had coverage for a short while. The revised PAG-02 Authorization Letter can be found in the Chapter 102 Resource Center of Clean Water Academy. The Bureau of Clean Water asks everyone to download the latest template ([Letter Templates](#))(Number 28) for immediate use.

Conservation District and Agriculture Agencies – Ag Meeting - Bureau of Watershed Restoration & Nonpoint Source Management is currently planning the virtual “Conservation District and Agriculture Agencies – Ag meeting” for mid to late July. This meeting was previously called the “All Ag Meeting” and held in March. Districts will be notified once a date is selected and an agenda is drafted.

PA Agricultural Conservation Assistance Program (ACAP)

Districts have spent the past few weeks updating the ACAP financial tracking system. The system is working well and can receive quarterly reports and process replenishments. Districts are encouraged to reach out to State Conservation Commission (SCC) Field Staff for any assistance they need with the system.

Penn State Univ. Center for Agriculture Conservation Assistance Training (PSU CACAT) has entered into an agreement with HRG to provide engineering services for ACAP. The focus of this firm's involvement with ACAP will be to provide assistance with an ACAP job certification system (similar to NRCS Job Approval Authority), provide training, and review/comment on project designs. This contract is not able to provide project specific engineering (I&E, drawings, inspections, etc.) for all ACAP projects across the state.

SCC and CACAT staff have begun drafting an ACAP admin manual with the hopes it will be approved by the SCC by the end of the year. The overall plan is for the admin manual to go through ACAP workgroup for review as well as a public comment period. Staff will develop a comment/response document prior to taking the admin manual to the SCC for approval.

All ACAP information can be found

at: https://www.agriculture.pa.gov/Plants_Land_Water/StateConservationCommission/Pages/default.aspx and [The Center for Agricultural Conservation Assistance Training | Penn State Extension \(psu.edu\)](#).

Clean Water Academy (CWA)

102 and 105 Attachment B on the Clean Water Academy – It is essential that Districts update Attachment B on the Clean Water Academy for the Chapter 102 and 105 Programs anytime there are staff changes at the district. **The 102 and 105 Programs use the Attachment B online forms to enable e-permitting permissions for new staff** and to disable them for former staff. The Attachment B can be found under the Data Portal tile in CWA. To update Attachment B, you need to search for your county and then select the Gear icon to edit. You can then change employment status to Former and choose an Employment End Date. This helps DEP maintain and enable all the data systems. [Course: Data Portal \(remote-learner.net\)](#)

2024 Dirt, Gravel, Low Volume Road (DGLVR) Program Trainings

The DGLVR Program has many of their 2024 trainings scheduled and registration is open. There is no charge to attend but registration is required. Training dates, locations, and details are available at each of the registration links below.

Environmentally Sensitive Maintenance (ESM) training: ESM trainings are a two-day classroom session focused on providing the knowledge and tools necessary for road owners to maintain roads in a more cost-efficient and environmentally sensitive manner. ESM trainings are open to both new certifications and those seeking a recertification. Upon completion, attendees are provided with a certification to apply for DGLVR funds for 5 years, expiring December 31st of the 5th year.

[ESM Training Registration - Center for Dirt and Gravel Road Studies \(psu.edu\)](#)

DGLVR Administrative training: 1-day course. Using the administrative manual as a guide, this class will outline the role of Conservation Districts in the Dirt, Gravel, and Low Volume Road Maintenance Program.

[Admin Training Registration - Center for Dirt and Gravel Road Studies \(psu.edu\)](#)

DGLVR Financial training: NEW 1-day course, scheduled back to back with Admin trainings. Any district staff involved in the DGLVR Program are welcome to attend, although district staff who manage program funding are especially encouraged to attend. This training covers topics including DGLVR financial policy, tracking funds, GIS financial tools, reconciling the GIS and conservation district DGLVR accounts, budgeting and spending requirements, and the financial portion of Quality Assurance / Quality Control (QAQC) visits.

[Financial Training Registration - Center for Dirt and Gravel Road Studies \(psu.edu\)](#)

Statement of Financial Interests

All Conservation District Directors are considered Public Officials and most District Employees are considered Public Employees. Any Conservation district employee that meets one or more of the criteria in the definition below **MUST** fill out a Statement of Financial Interest. Completing a statement is not optional. It is required by law. Statements are to be completed and filed with the Conservation District no later than May 1st. The general rule with this form is “when in doubt, fill it out”.

“Public Official” includes any person (*such as a conservation district director*) appointed by a governmental body (such as the board of county commissioners or the county council)

“Public Employee” includes any individual employed by the Commonwealth or a political subdivision (*like a conservation district*) who is responsible for taking or recommending official action of a non-ministerial nature with regard to: Contracting or procurement; Administering or monitoring grants or subsidies; Planning or zoning; Inspecting, licensing, regulating, or auditing any person; or Any other activity where the official action has an economic impact of greater than a de minimis nature on the interests of any person.

Please refer to the Director Handbook (pp. 4-6) or the Red Ethics Pamphlet (p. 12-15 & 31-36) for additional information. If you require additional forms go to www.ethics.state.pa.us and click on "forms" on the left side of the page.

Chesapeake Bay Program

Phase 3 Watershed Implementation Plan (WIP) Numeric Reporting for 2023 Progress Year

Completed- The Chesapeake Bay Partnership Section (CBPS) concluded the 2023 progress reporting year on February 6. For 2023, more than 40 local, state, and federal partners reported 14,535 Best Management Practices (BMPs) into the National Environmental Information Exchange Network (NEIEN) and Chesapeake Assessment Scenario Tool (CAST) Model. The success of data reporting is in large part due to the state and county level partnerships that we have made and continued to build on.

This progress year, the CBPS have added a newly approved methodology from Larson Design Group (LDG) to use for reporting specific BMPs in Pennsylvania. The methodology consists of a non-intrusive approach to BMP verification through current and detailed satellite imagery. After months of LDG working on this methodology, this method was approved at the August 2023 Chesapeake Bay Water Quality Goal Implementation Team meeting.

2023 Countywide Action Plan (CAP) Annual Reports, Milestone Updates, and Progress Snapshots available on the website

In 2023, 30 of the 34 counties completed a 2-year milestone update on their Countywide Action Plans (CAPs) where county partners updated their goals and initiative for the next two years. Additionally, all 34 counties completed an annual progress report on their CAP efforts over the past year. Counties who completed a 2-year milestone update also updated their numeric goals on what the county intends to address the nutrient and sediment reductions identified in the Phase 3 Watershed Implementation Plan (WIP). These numeric goals and the progress the counties have made for them are captured in Snapshots that are created by the Chesapeake Bay Watershed Restoration Division in conjunction with the Susquehanna River Basin Commission. All of these finalized documents have been added to the CAP website and are available to the public: [Countywide Action Plans \(pa.gov\)](https://pa.gov).
